

Mr. Jaideep
Senior Product Manager -- Enterprise Products
Google

Jaideep is a Senior Product Manager with responsibility for Enterprise Products within Google.

Prior to Google, Jaideep was Managing Director, Relativity Technologies India, (Intel-funded) where he built the India business from scratch. Relativity's products reverse-engineer legacy systems to generate documentation infer business rules and refactor code.

Jaideep spent 20 years in the US where he was Director, Applications Engineering at Teradata. He also served as VP, Product Development at Relativity where he had the thrill of collaborating with two labs of talented engineers in Russia (St. Petersburg and Novosibirsk). Jaideep began his career with Seer Technologies as an engineer working on middleware products. Seer was funded by IBM and went IPO in 5 years before it got acquired.

Jaideep has an MBA from Duke University, an MS-CS from UNC-Chapel Hill and a BS-CS from the College of Charleston. He is also a US Patent holder in the areas of Application Integration and Modernization."
