

Mr. Hemanth Dattatreya
Client Principal
Software & Solutions
Hewlett-Packard Asia Pacific and Japan

Hemanth Dattatreya is a Client Principal for HP Software & Solutions. He is also the Cloud Computing Lead for HP India. Since he joined HP in 1999, Hemanth has been involved in building cloud research prototypes with HP Labs as well as market requirements management for Cloud Computing between 2008-2010.

His previous roles in HP include Program Manager for the Greater China Business Enablement, Program Lead for competitive programs and senior software engineer for HP-UX systems.

Hemanth wears numerous industry hats in the areas of Internet Policy & penetration and IPv6 deployment (next-generation Internet). As the co-founder and vice president of the IPv6 Forum India, he has helped increase IPv6 awareness in India and played a crucial role in shaping Government's National Policy on IPv6. He advises Dept of Telecom on the same and participates in their committees on Internet. He is also on the Asia Pacific and North America IPv6 task forces, and a member of the advisory committee for the South Asia Network Operators Group - a regional forum to discuss operational issues and technologies of interest to data operators.

His work in the technology industry has earned Hemanth many awards within HP, including the HP Asia Pacific Integrity Champion (Sales), Hewlett Packard Business Excellence Award for Value Innovation, and Individual Initiative award. He was also conferred the "Internet Pioneer Award" in March 2005 by the IPv6 Forum.
