

**Sundara Raman VS**  
**Chief Architect**  
**Ramco OnDemand ERP**

Sundara Raman is the Chief Architect of Ramco OnDemand ERP, the first full fledged ERP delivered as a service to the clients.

Over the last 16 years of his association with Ramco Systems, Sundara Raman has handled various responsibilities in presales, product development and implementations across the globe. He has been a key strategist in cloud computing initiatives of Ramco and has played a significant role in delivering India's First SaaS product

One area of Sundara Raman's long-term interests is to deliver easy-to-use business applications over the Internet for all types of end users at extremely affordable price and democratize the ERP world. Over the past 3 years, he has helped several firms' transition to SaaS business model and reaps the benefits of co-creating through Ramco OnDemand ERP.

Sundara Raman is an active member of the several SaaS communities, having spoken at many industry conferences, events, user groups, forums and seminars.

Sundara Raman holds a Bachelors Degree in Production Engineering from Regional Engineering College (now NIT), Trichy and MS in Industrial Management from IIT Chennai
